Forecast for Thursday 23 Mar 2023

Weather: A day of showers and clear then brighter spells. Outbreaks mainly across southern peaks such as Ben Lawers, with some heavy bringing a risk of thunder and hail, chiefly through the afternoon. Snow level 600-700m lifting 900m by evening.

Chance of cloud-free hill tops above 800m: 75% for any given time but limited chance of extended clear periods given the showery nature of the flow

Low Cloud and visibility: Good becoming moderate or poor in rain showers, very poor in snow and within cloud with bases lowering 450-600m at times, particularly as showers swing through.

Met Office Aberdeen Meteorologist's View
Severe wind chill across higher peaks

Forecast for Friday 24 Mar 2023

Weather: Another day of quite frequent showers, probably slower moving than Thursday's, again heavy at times with the risk of hail and thunder heightened for the afternoon. Snow level around 800m.

Maximum wind: South 20-25 mph easing and veering through the day, becoming northwesterly by evening.

Chance of cloud-free hill tops above 800m: 70% for any given time but limited chance of extended clear periods given the showery nature of the flow

Low Cloud and visibility: Good becoming moderate or poor in rain showers, very poor in snow and within cloud with bases lowering 300-500m at times, particularly in and around the showers

Temperature: **Glens:** Plus 2 Celsius increasing 11 Celsius for the afternoon
At 800m: Zero Celsius to Plus 2 Celsius
Freezing level: Around 800-1000m
